EDUCATION

- | | |
|--|--------------------|
| • B.Tech in Computer Science Jyothy Institue of Technology, Bangalore | CGPA: 9 Jan 2024 |
| • XII (CBSE) Kendriya Vidyalaya , Malda, West Bengal, India | Percentage: 91.3% |
| • X (CBSE) Kendriya Vidyalaya , Malda, West Bengal, India | Percentage: 86.5% |

PROJECTS

- Netflix App**
Developed and designed a fully responsive Netflix clone using HTML, CSS, and JavaScript, showcasing proficiency in front-end web development. Implemented intuitive user interfaces and interactive features, ensuring seamless functionality across various devices.
- Spotify App**
Developed a responsive Spotify clone utilizing HTML, CSS, and JavaScript, showcasing strong proficiency in front-end development. Implemented an intuitive user interface and cross-platform compatibility, demonstrating expertise in modern web design principles.
- Simon Game**
Designed and built a Simon game using HTML, CSS, and JavaScript, showcasing expertise in front-end development. Implemented interactive features and user-friendly interfaces, demonstrating strong problem-solving skills and a passion for creating engaging, functional applications.
- Weather Forecasting App**
Engineered a dynamic Weather Forecasting App utilizing HTML, CSS, JavaScript, and React, integrating OpenWeather API for real-time data. Demonstrated versatility in front-end technologies and API integration to deliver a user-centric, responsive application. Highlighted problem-solving skills and a commitment to creating functional, data-driven solutions.

SKILLS

- HTML | • CSS | • Bootstrap/Tailwind | • JavaScript | • Node.Js | • Express.js | • React.js |
- DBMS/SQL | • Data Structures|

ACHIEVEMENTS

- | | |
|---|--------------|
| • Completed Html course from Log2Base2 | (31/12/2023) |
| • Completed CSS course from Log2Base2 | (31/12/2023) |
| • Completed Data Structures in Java course from Log2Base2 | (23/06/2023) |
